

Utah System of Higher Education
Business
FY2025 / 21 Credits (630 Clock-Hours)

Foundational Courses

TEBP 1000 Financial Principles

3 Credits / 90 Clock-Hours

The Financial Principles course introduces math concepts used in a variety of business contexts. Students will apply these principles to general purpose finance and accounting.

Objectives:

- Apply math principles to perform business calculations.
- Create and evaluate financial documents.
- Explore the accounting cycle.

TEBP 1100 Digital Literacy

2 Credits / 60 Clock-Hours

The Digital Literacy course explores current technology. Students will practice appropriately and effectively using tools for productivity and collaboration tools; finding reliable information; creating content; communicating safely; and identifying credibility and bias in modern digital environments.

Objectives:

- Demonstrate digital citizenship and appropriate interpersonal digital information.
- Describe concepts relating to common digital environments, software, hardware, and operating systems.
- Describe digital security threats and explain how to protect personal devices and digital content.
- Use tools and technologies to collaborate.
- Create, edit, and save digital content and manage digital information.
- Navigate the internet and evaluate the integrity of digital information.

TEBP 1130 Word Processing

2 Credits / 60 Clock-Hours

Word Processing focuses on creating and managing professional documents. Students will explore editing and formatting, enhancing documents with visual elements, and using collaboration and reference tools. Upon successful completion of this course, students will be able to demonstrate industry-level competency.

Objectives:

- Manage word processing documents.
- Insert and format text, paragraphs, and sections.
- Manage tables and lists.
- Create and manage reference.
- Insert and format graphic elements.
- Manage document collaboration.

TEBP 1140 Spreadsheets

2 Credits / 60 Clock-Hours

Spreadsheets introduces the essential spreadsheet features needed to create worksheets by entering and editing data. Students will explore formulas and functions, visual elements, and formatting. Upon successful completion of this course, students will be able to demonstrate industry-level competency.

Objectives:

- Create, format, edit, print, and save worksheets and workbooks.
- Manage and manipulate data.
- Summarize data using charts, tables, and graphic elements.
- Use formulas and functions.

Utah System of Higher Education
Business
FY2025 / 21 Credits (630 Clock-Hours)

TEBP 1150 Presentations

2 Credits / 60 Clock-Hours

Presentations explores developing and creating professional electronic presentations. Students will practice adding visual elements, formatting slides, incorporating audio and video elements, and saving and sharing files. Upon successful completion of this course, students will be able to demonstrate industry-level competency.

Objectives:

- Explore professionalism in presentations.
- Create professional presentations.
- Operate common electronic presentation software.
- Demonstrate use of graphics, formatting, animations, and transitions to enhance a presentation.

TEBP 1200 Professionalism

3 Credits / 90 Clock-Hours

Professionalism explores behaviors, attitudes, and human skills essential for workplace success. Students will study how to build strong customer relations and provide outstanding customer service in a diverse workplace. Students will use professional skills to prepare for potential career opportunities.

Objectives:

- Explain the importance of human skills for success in the workplace.
- Explore the foundations of a service culture and develop relationship management skills.
- Demonstrate preparedness for potential career opportunities.
- Practice acceptable workplace conduct, including self-management, willingness to learn, and workplace relationships.

TEBP 1500 Business English

1 Credit / 30 Clock-Hours

Business English emphasizes the essentials of clear, concise, and correct business English. Students will demonstrate professional writing and proofreading by using accurate spelling, grammar, punctuation, and sentence fluency skills.

Objectives:

- Explore the fundamentals of the English language and why they are necessary for effective communication.
- Demonstrate the fundamentals of grammar, punctuation, spelling, and word usage.
- Proofread and edit existing documents for clarity and accuracy.

TEBP 1550 Business Communication

3 Credits / 90 Clock-Hours

Business Communication introduces students to best practices for planning, composing, and revising professional business messages. Students will explore the importance of using proper mechanics, knowing the intended audience, and organizing messages to communicate successfully.

Objectives:

- Create a variety of business documents in the proper format.
- Analyze the purpose, identify the audience, and select the appropriate channel to compose a successful message.
- Demonstrate the steps of business writing, including planning, writing, and revising.
- Demonstrate proofreading and editing skills.
- Explore digital media writing skills and techniques.

Utah System of Higher Education
Business
FY2025 / 21 Credits (630 Clock-Hours)

TEBP 1840 Business Productivity

3 Credits / 90 Clock-Hours

The Business Productivity course explores current tools used by business professionals to create and sustain a productive workplace, including coordinating office activities and preparing and organizing professional documents. Students will practice working and communicating efficiently to facilitate the success of their organization.

Objectives:

- Create and organize workplace documents.
- Demonstrate best practices for using, crafting, distributing, and tracking electronic communication.
- Develop interpersonal skills needed for supporting stakeholders at all levels of the company.
- Operate appropriate software applications for administrative support.

Supplemental Courses Varies by Institution

Bridgerland

TEBP 1300 Accounting I

2 Credits / 60 Clock-Hours

The Accounting I course introduces the basic principles and language of accounting. Students will demonstrate record-keeping concepts, including analyzing, journalizing, and posting transactions for a service-based business. Students will complete the entire accounting cycle, close the books, and make correcting entries.

Objectives:

- Perform all stages of the accounting cycle.
- Create and analyze financial reports.
- Demonstrate best practices for ethical and accurate accounting.

TEBP 1350 Computerized Accounting

3 Credits / 90 Clock-Hours

The Computerized Accounting course introduces students to software available for automating accounting functions. Students set up and maintain the financial processes within a business. Upon successful completion of this course, students will be able to demonstrate industry-level competency.

Objectives:

- Use accounting software to set up a company and perform all stages of the accounting cycle.
- Use accounting software to create and analyze financial reports.
- Use accounting software to customize business documents, forms, reports, and graphs.
- Demonstrate best practices for ethical and accurate accounting.

Utah System of Higher Education
Business
FY2025 / 21 Credits (630 Clock-Hours)

TEBP 1650 Management Principles

2 Credits / 60 Clock-Hours

Management principles will address strategies related to starting, owning, operating, and growing a small business. Students will explore marketing, financial management, leadership, ethics, and growth opportunities. Upon successful completion of this course, students will be able to demonstrate industry-level competency.

Objectives:

- Explore the human and legal aspects of starting and organizing a business.
- Practice analyzing and managing the financial aspects of a business including cash flow, financing, and profit management.
- Demonstrate an understanding of how to manage the operations of a business effectively and efficiently.

TEBP 2000 Introduction to Entrepreneurship

3 Credits / 90 Clock-Hours

The Introduction to Entrepreneurship course examines what it takes to start a new business. Students will explore business ideas and strategies. Upon successful completion of this course, students will have the necessary tools to create or expand a start-up business.

Objectives:

- Create a business plan.
- Analyze target markets and sales strategies.
- Identify ethical and sound decision-making practices.
- Project business costs and revenue.

TEBP 2130 Advanced Word Processing

2 Credits / 60 Clock-Hours

The Advanced Word Processing course focuses on advanced techniques used to create and manage professional documents. Students will expand upon editing and formatting practices and specialized software features. Students will be able to demonstrate an increase in industry-level competency.

Objectives:

- Apply advanced collaboration tools.
- Use advanced tools to manipulate documents.
- Automate repetitive tasks to save time and effort.

TEBP 2140 Advanced Spreadsheets

2 Credits / 60 Clock-Hours

The Advanced Spreadsheets course focuses on advanced spreadsheet features used to further enhance worksheets. Students will expand formula applications and utilize analysis tools. Students will be able to demonstrate an increase in industry-level competency.

Objectives:

- Apply advanced formatting techniques and functions.
- Use collaboration features.
- Use advanced tools to forecast data outcomes.
- Automate repetitive tasks.

Utah System of Higher Education
Business
FY2025 / 21 Credits (630 Clock-Hours)

TEBP 2160 Database

2 Credits / 60 Clock-Hours

The Database course introduces the essential features needed to create a functional database. Students will explore tables, queries, and reports. Upon successful completion of this course, students will be able to demonstrate industry-level competency.

Objectives:

- Create, format, and edit tables.
- Execute query actions to compile data.
- Combine data in summary reports.
- Manage and manipulate data.

TEBP 2180 Intro to Adobe Suite

2 Credits / 60 Clock-Hours

The Intro to Adobe Suite course explores the basic features of popular Adobe software. Students will learn to modify photos, develop simple videos, create fillable forms, and more. Upon successful completion of this course, students will be able to produce attractive business media.

Objectives:

- Apply basic original-design principles.
- Create professional business documents and media.
- Develop a portfolio of completed projects.

TEBP 2300 Accounting II

2 Credits / 60 Clock-Hours

The Accounting II course expands upon the basic principles of accounting. Students will demonstrate bookkeeping concepts, including analyzing, journalizing, and posting transactions for a merchandising business. Students will complete the entire accounting cycle using special journals and classified financial statements.

Objectives:

- Perform all stages of the accounting cycle.
- Analyze and post transactions in special journals.
- Explore the payroll process.
- Calculate costs of goods sold for inventory.

TEBP 2320 Accounting III

2 Credits / 60 Clock-Hours

The Accounting III course exposes students to managerial accounting and decision making. Students will explore departmental financial statements, inventory valuation methods, and horizontal and vertical analyses. Students will demonstrate sound financial decision-making processes for business.

Objectives:

- Compute ratios and rates to determine financial health of a business.
- Apply depreciation methods to account accurately for assets.
- Demonstrate best practices for ethical and accurate accounting.

Utah System of Higher Education
Business
FY2025 / 21 Credits (630 Clock-Hours)

TEBP 2350 Payroll Accounting

2 Credits / 60 Clock-Hours

The Payroll Accounting course provides an application-approach to accounting for payroll and tax reporting. Students will work through the steps of calculating employee payroll. Upon successful completion of this course, students will demonstrate payroll proficiency.

Objectives:

- Compute payroll and payroll taxes.
- Explore special circumstances that arise in the payroll process.
- Prepare financial statements.
- Demonstrate best practices for ethical and accurate payroll accounting.

TEBP 2390 Accounting Capstone

1 Credit / 30 Clock-Hours

The Accounting Capstone course integrates student knowledge and skills gained through previously completed coursework. Students will apply decision-making, critical-thinking, and problem-solving skills to complete realistic business projects. Students will demonstrate accounting proficiency upon completion of this course.

Objectives:

- Use professionalism skills to communicate effectively.
- Increase self-confidence through the application of coursework knowledge.
- Prepare for entry-level work in an accounting setting.

TEBP 2410 Financial Planning

2 Credits / 60 Clock-Hours

The Financial Planning course provides a foundation in personal finances. Students will practice budgeting and investing techniques. Upon successful completion of this course, students will be able to communicate effectively about money.

Objectives:

- Analyze personal financial position.
- Set short- and long-term goals.
- Use money management techniques to make sound financial decisions.

TEBP 2610 Social Media Marketing

2 Credits / 60 Clock-Hours

The Social Media Marketing course introduces basic marketing principles using social media platforms. Students will be exposed to valuable tools, tips, and practices that promote optimal marketing results. Students will be able to demonstrate effective marketing principles for a business.

Objectives:

- Create a social media marketing strategy.
- Track and analyze the effectiveness of online marketing efforts.
- Use the 4 Ps process to develop products and services.

Utah System of Higher Education
Business
FY2025 / 21 Credits (630 Clock-Hours)

TEBP 2640 Public Relations

2 Credits / 60 Clock-Hours

The Public Relations course explores the skills necessary to build customer and community relationships. Students will be exposed to crisis responses, campaigns, and promotional activities. Students will be able to convey messages to audiences in a variety of circumstances.

Objectives:

- Utilize media sources to build relationships.
- Conduct quantitative and qualitative research.
- Develop and review goals.
- Write considerate messages to convey a positive business image.

TEBP 2700 Marketing in Business

2 Credits / 60 Clock-Hours

The Marketing in Business course exposes students to effective marketing techniques. Students will study target markets, marketing material, and supply and demand opportunities. Upon completion of this course, students will have completed a marketing plan.

Objectives:

- Analyze consumer behavior using market research.
- Explore social, economic, technological, competitive, and regulatory forces.
- Apply interactive and multichannel marketing in developing products and services.

TEBP 2890 Administrative Capstone

1 Credit / 30 Clock-Hours

The Administrative Capstone course integrates student knowledge and skills gained through previously completed coursework. Students will apply decision-making, critical-thinking, and problem-solving skills to complete realistic business projects. Students will demonstrate business office proficiency upon completion of this course.

Objectives:

- Demonstrate ability to work independently and efficiently.
- Use professionalism skills to communicate effectively.
- Increase self-confidence through the application of coursework knowledge.
- Prepare for entry-level work in a business office setting.

TEBP 2901 Special Applications

1 Credit / 30 Clock-Hours

The Special Applications course provides students with unique or advanced skill development needed in current occupational industry. Students will select a course and draft a proposal defining its relation to the Business certificate. Upon completion of this course, students will review success of the course compared to the proposal. Credit will be given in increments up to 180 hours. Requires approval.

Objectives:

- Create a professional proposal.
- Define criteria that relates to certificate course.
- Apply decision-making, critical-thinking, and problem-solving skills.

Utah System of Higher Education
Business
FY2025 / 21 Credits (630 Clock-Hours)

TEBP 2999 Business Externship

3 Credits / 135 Clock-Hours

The Business Externship course provides students with real-world work experience. Students will complete job-related activities as determined by the cooperating employer. Upon successful completion of this course, students will have practiced and mastered employer-set objectives, which may lead to employment.

Objectives:

- Demonstrate professional work habits.
- Apply knowledge and skills learned throughout the program.
- Accept employer feedback and improve accordingly.
- Perform self-evaluation on externship experience.

Davis

TEBP 1300 Accounting I

2 Credits / 60 Clock-Hours

The Accounting I course introduces the basic principles and language of accounting. Students will demonstrate record-keeping concepts, including analyzing, journalizing, and posting transactions for a service-based business. Students will complete the entire accounting cycle, close the books, and make correcting entries.

Objectives:

- Perform all stages of the accounting cycle.
- Create and analyze financial reports.
- Demonstrate best practices for ethical and accurate accounting.

TEBP 1350 Computerized Accounting

3 Credits / 90 Clock-Hours

The Computerized Accounting course introduces students to software available for automating accounting functions. Students set up and maintain the financial processes within a business. Upon successful completion of this course, students will be able to demonstrate industry-level competency.

Objectives:

- Use accounting software to set up a company and perform all stages of the accounting cycle.
- Use accounting software to create and analyze financial reports.
- Use accounting software to customize business documents, forms, reports, and graphs.
- Demonstrate best practices for ethical and accurate accounting.

Utah System of Higher Education
Business
FY2025 / 21 Credits (630 Clock-Hours)

TEBP 2110 Google Drive

1 Credit / 30 Clock-Hours

Google Drive examines the features and uses of Google Drive applications using a hands-on approach. During this course, you will explore the uses of Google Drive, Google Docs, Google Sheets, Google Slides, Google Forms, and Google Drawings. You will create documents, pie charts, forms, sheets, and drawings using the various application found in Google Drive.

Objectives:

- Define Google Drive and relate its use to a workplace scenario.
- Construct a Google Docs file and utilize the download function.
- Develop a pie chart and a column chart in Google Sheets and utilize the share function.
- Design a Google Slides presentation and relate its use to a given scenario.
- Formulate a Google Form and use the send function.
- Create a Google Drawing.
- Evaluate the benefits of using Google Drive.

TEBP 2130 Advanced Word Processing

2 Credits / 60 Clock-Hours

The Advanced Word Processing course focuses on advanced techniques used to create and manage professional documents. Students will expand upon editing and formatting practices and specialized software features. Students will be able to demonstrate an increase in industry-level competency.

Objectives:

- Apply advanced collaboration tools.
- Use advanced tools to manipulate documents.
- Automate repetitive tasks to save time and effort.

TEBP 2140 Advanced Spreadsheets

2 Credits / 60 Clock-Hours

The Advanced Spreadsheets course focuses on advanced spreadsheet features used to further enhance worksheets. Students will expand formula applications and utilize analysis tools. Students will be able to demonstrate an increase in industry-level competency.

Objectives:

- Apply advanced formatting techniques and functions.
- Use collaboration features.
- Use advanced tools to forecast data outcomes.
- Automate repetitive tasks.

TEBP 2160 Database

2 Credits / 60 Clock-Hours

The Database course introduces the essential features needed to create a functional database. Students will explore tables, queries, and reports. Upon successful completion of this course, students will be able to demonstrate industry-level competency.

Objectives:

- Create, format, and edit tables.
- Execute query actions to compile data.
- Combine data in summary reports.
- Manage and manipulate data.

Utah System of Higher Education
Business
FY2025 / 21 Credits (630 Clock-Hours)

TEBP 2190 Email Applications

2 Credits / 60 Clock-Hours

Email Applications focuses on basic email features used in creating, sending, and receiving email messages. Practical business applications involving managing email messages, contacts, tasks, notes, and journal entries, as well as using the calendar features, will be covered. Upon successful completion of this course, students will be able to demonstrate industry-level competency.

Objectives:

- Navigate basic program menus and toolbars.
- Send, receive, and manage E-mail messages.
- Create and manage rules to automate message processing.
- Create events and appointments.
- Create and manage notes and journal entries.

TEBP 2300 Accounting II

2 Credits / 60 Clock-Hours

The Accounting II course expands upon the basic principles of accounting. Students will demonstrate bookkeeping concepts, including analyzing, journalizing, and posting transactions for a merchandising business. Students will complete the entire accounting cycle using special journals and classified financial statements.

Objectives:

- Perform all stages of the accounting cycle.
- Analyze and post transactions in special journals.
- Explore the payroll process.
- Calculate costs of goods sold for inventory.

TEBP 2320 Accounting III

2 Credits / 60 Clock-Hours

The Accounting III course exposes students to managerial accounting and decision making. Students will explore departmental financial statements, inventory valuation methods, and horizontal and vertical analyses. Students will demonstrate sound financial decision-making processes for business.

Objectives:

- Compute ratios and rates to determine financial health of a business.
- Apply depreciation methods to account accurately for assets.
- Demonstrate best practices for ethical and accurate accounting.

TEBP 2390 Accounting Capstone

1 Credit / 30 Clock-Hours

The Accounting Capstone course integrates student knowledge and skills gained through previously completed coursework. Students will apply decision-making, critical-thinking, and problem-solving skills to complete realistic business projects. Students will demonstrate accounting proficiency upon completion of this course.

Objectives:

- Use professionalism skills to communicate effectively.
- Increase self-confidence through the application of coursework knowledge.
- Prepare for entry-level work in an accounting setting.

Utah System of Higher Education
Business
FY2025 / 21 Credits (630 Clock-Hours)

TEBP 2410 Financial Planning

2 Credits / 60 Clock-Hours

The Financial Planning course provides a foundation in personal finances. Students will practice budgeting and investing techniques. Upon successful completion of this course, students will be able to communicate effectively about money.

Objectives:

- Analyze personal financial position.
- Set short- and long-term goals.
- Use money management techniques to make sound financial decisions.

TEBP 2610 Social Media Marketing

2 Credits / 60 Clock-Hours

The Social Media Marketing course introduces basic marketing principles using social media platforms. Students will be exposed to valuable tools, tips, and practices that promote optimal marketing results. Students will be able to demonstrate effective marketing principles for a business.

Objectives:

- Create a social media marketing strategy.
- Track and analyze the effectiveness of online marketing efforts.
- Use the 4 Ps process to develop products and services.

TEBP 2760 Introduction to Sales

1 Credit / 30 Clock-Hours

Introduction to Sales provides a knowledge and understanding of the career opportunities in the sales industry. Students will learn the ethics involved in sales, how to approach and sell to different personality types, and the basics of using customer relationship management (CRM) software.

Objectives:

- Understand the sales industry.
- Explore sales ethics.
- Evaluate prospective and types of customers.
- Research CRM systems.

TEBP 2770 Sales Techniques and Presentations

2 Credits / 60 Clock-Hours

Sales Techniques and Presentations emphasizes the necessary skills to create and execute an effective sales pitch in different sales environments. Students will practice determining customer needs and overcoming objections when selling. Students will demonstrate fundamental selling techniques and negotiations required for success in sales. Students will also develop the necessary skills to deliver an effective presentation.

Objectives:

- Understand marketing and how social media is used in today's world.
- Apply supply and demand forces as it relates to consumer and audience behavior.
- Use Facebook, Google, and Twitter to learn how these social media platforms market.
- Learn how advertising and promotion play an important role in marketing.
- Create a marketing strategy that will drive consumers to purchase.

Utah System of Higher Education
Business
FY2025 / 21 Credits (630 Clock-Hours)

TEBP 2810 Advanced Keyboarding

1 Credit / 30 Clock-Hours

Advanced Keyboarding is designed to help you develop proper keyboarding techniques with an emphasis on increasing keyboarding speed and accuracy to a minimum job-market level of 60 wpm. During this course, you will be given intensive skill building practice using drills and timed tests.

Objectives:

- Demonstrate ability to keyboard by touch.
- Perform keyboarding rate of 60 wpm on a five-minute timed writing with correction allowed.

TEBP 2820 Records Management

3 Credits / 90 Clock-Hours

The Records Management course explores how to work with dual records management systems to organize records in paper and electronic formats. Students will practice managing records in accordance with industry standards to facilitate correct storage procedures and timely retrieval rates.

Objectives:

- Identify basic records management concepts.
- Demonstrate indexing rules and filing procedures.
- Use appropriate records retention, transfer, and disposition.

TEBP 2890 Administrative Capstone

1 Credit / 30 Clock-Hours

The Administrative Capstone course integrates student knowledge and skills gained through previously completed coursework. Students will apply decision-making, critical-thinking, and problem-solving skills to complete realistic business projects. Students will demonstrate business office proficiency upon completion of this course.

Objectives:

- Demonstrate ability to work independently and efficiently.
- Use professionalism skills to communicate effectively.
- Increase self-confidence through the application of coursework knowledge.
- Prepare for entry-level work in a business office setting.

TEBP 2900 Business Externship

2 Credits / 90 Clock-Hours

The Business Externship course provides students with real-world work experience. Students will complete job-related activities as determined by the cooperating employer. Upon successful completion of this course, students will have practiced and mastered employer-set objectives, which may lead to employment.

Objectives:

- Gain industry experience.
- Demonstrate professional work habits.
- Apply knowledge and skills learned throughout the program.
- Accept employer feedback and improve accordingly.
- Perform self-evaluation on externship experience.

Utah System of Higher Education
Business
FY2025 / 21 Credits (630 Clock-Hours)

Ogden-Weber

TEBP 1300 Accounting I

2 Credits / 60 Clock-Hours

The Accounting I course introduces the basic principles and language of accounting. Students will demonstrate record-keeping concepts, including analyzing, journalizing, and posting transactions for a service-based business. Students will complete the entire accounting cycle, close the books, and make correcting entries.

Objectives:

- Perform all stages of the accounting cycle.
- Create and analyze financial reports.
- Demonstrate best practices for ethical and accurate accounting.

TEBP 1350 Computerized Accounting

3 Credits / 90 Clock-Hours

The Computerized Accounting course introduces students to software available for automating accounting functions. Students set up and maintain the financial processes within a business. Upon successful completion of this course, students will be able to demonstrate industry-level competency.

Objectives:

- Use accounting software to set up a company and perform all stages of the accounting cycle.
- Use accounting software to create and analyze financial reports.
- Use accounting software to customize business documents, forms, reports, and graphs.
- Demonstrate best practices for ethical and accurate accounting.

TEBP 1700 Marketing I

3 Credits / 90 Clock-Hours

The Marketing I course introduces the marketing function by emphasizing concepts and terminology. Students will explore components of the marketing mix, opportunities available, marketing ethics, and globalization. Students will incorporate consumer behavior, product placement, SWOT, and market research in a marketing plan.

Objectives:

- Describe a product lifecycle, the four Ps of marketing, and market opportunities.
- Explore the elements of a marketing plan.
- Evaluate marketing research and positioning.
- Analyze social, economic, technological, competitive, and regulatory forces.

TEBP 1750 Sales Fundamentals

2 Credits / 60 Clock-Hours

The Sales Fundamentals course introduces the fundamentals of personal selling and persuasion as students explore how to develop strong customer relationships, build trust, and identify ethical selling practices. Students will examine types of buyers and the buying process, and opportunities in the modern sales industry.

Objectives:

- Describe personal selling and alternative selling approaches.
- Explain the sales process and sales ethics.
- Identify types of buyers and describe the buying process.

Utah System of Higher Education
Business
FY2025 / 21 Credits (630 Clock-Hours)

TEBP 2000 Introduction to Entrepreneurship

3 Credits / 90 Clock-Hours

The Introduction to Entrepreneurship course examines what it takes to start a new business. Students will explore business ideas and strategies. Upon successful completion of this course, students will have the necessary tools to create or expand a start-up business.

Objectives:

- Create a business plan.
- Analyze target markets and sales strategies.
- Identify ethical and sound decision-making practices.
- Project business costs and revenue.

TEBP 2300 Accounting II

2 Credits / 60 Clock-Hours

The Accounting II course expands upon the basic principles of accounting. Students will demonstrate bookkeeping concepts, including analyzing, journalizing, and posting transactions for a merchandising business. Students will complete the entire accounting cycle using special journals and classified financial statements.

Objectives:

- Perform all stages of the accounting cycle.
- Analyze and post transactions in special journals.
- Explore the payroll process.
- Calculate costs of goods sold for inventory.

TEBP 2610 Social Media Marketing

2 Credits / 60 Clock-Hours

The Social Media Marketing course introduces basic marketing principles using social media platforms. Students will be exposed to valuable tools, tips, and practices that promote optimal marketing results. Students will be able to demonstrate effective marketing principles for a business.

Objectives:

- Create a social media marketing strategy.
- Track and analyze the effectiveness of online marketing efforts.
- Use the 4 Ps process to develop products and services.

TEBP 2620 Fundamentals of Human Resources

2 Credits / 60 Clock-Hours

The Human Resource Management (HRM) course focuses on recruitment, talent acquisition, employee development, performance management, and HRM policies. Students will explore HRM best practices to enhance productivity, foster a positive work culture, and develop an understanding in EEO practices, training, performance appraisal, and compensation.

Objectives:

- Apply the principles of EEO and Safe Workplace in an organization.
- Demonstrate knowledge of performance management, employee reviews, employee separation, and compensation/benefits structures.
- Summarize major state and federal laws and agencies that govern employment practices and explain employers' duties under OSHA.
- Explain HRM responsibilities involved in recruiting, acquiring, training, and developing people.

Utah System of Higher Education
Business
FY2025 / 21 Credits (630 Clock-Hours)

TEBP 2630 Principles of Leadership

2 Credits / 60 Clock-Hours

The Principles of Leadership course explores effective conflict management skills and teaches how to establish a constructive culture by applying of appropriate leadership philosophies and styles. Students will develop leadership characteristics through self-evaluation activities, practice scenarios, and case studies.

Objectives:

- Use current leadership theories and develop leadership characteristics.
- Practice leadership through self-reflection and action exercises.
- Demonstrate ability to improve leadership performance through practice exercises.
- Use effective conflict management and establish a constructive organizational culture.
- Apply leadership philosophy and identify different leadership styles.

TEBP 2650 Project Management Essentials

2 Credits / 60 Clock-Hours

The Project Management Essentials course examines project initiation, planning, stakeholder strategies, cost projections, staffing, quality management, and performance monitoring. Upon successful completion of this course students will be able to demonstrate industry-level competency in the fundamentals of project management.

Objectives:

- Develop project proposals.
- Identify and manage risks.
- Understand resource utilization in business applications.
- Use communication and documentation to create a strong organization.

TEBP 2750 Customer Relationship Management

2 Credits / 60 Clock-Hours

The Customer Relationship Management course examines customer relationship management (CRM) and its application in marketing, sales, and service. Students will explore CRM foundations and gain an understanding of the processes involved by using CRM software.

Objectives:

- Explore the foundations of effective customer relationship management.
- Apply effective CRM to marketing, sales, and service scenarios.
- Create CRM processes to develop customer loyalty.
- Use a CRM software platform to carry out tasks.

TEBP 2821 Records Management

2 Credits / 60 Clock-Hours

The Records Management course explores how to work with dual records management systems to organize records in paper and electronic formats. Students will practice managing records in accordance with industry standards to facilitate correct storage procedures and timely retrieval rates.

Objectives:

- Identify basic records management concepts.
- Demonstrate indexing rules and filing procedures.
- Use appropriate records retention, transfer, and disposition.
