

Utah System of Higher Education
Advanced Energy Transportation
FY2025 / 8 Credits (240 Clock-Hours)

Foundational Courses

TEEG 1100 Energy Transportation Practicum

8 Credits / 240 Clock-Hours

The Energy Transportation Practicum course will teach students how to safely transport live loads, identify different types of long combination vehicles (LCV) and the coupling and uncoupling process of LCV. The student will experience the loading and unloading process on simulated and or live production sites and will be introduced to the basic principles and processes of buying oil. Students will receive training to test for the required hazmat endorsement.
